Personal Information: Proficient front-end developer with expertise in JavaScript, TypeScript, Vue.js, React.js, and Next.js. Experienced in crafting dynamic and responsive web applications, eager to tackle new challenges, available for work in Uzbekistan.

WorkExperience

IT TIME AGENCY   November 2023/ May 2024

I worked on the IT team for six months, specializing in web application development and support. I increased digital presence by creating business card websites, landing pages, and online stores. I made user interfaces responsive and conducted thorough code reviews. I mentored junior developers, implemented new features, and quickly resolved technical issues.

Online mentorship since   October 2023/ February 2024

 During this process, I learned effective communication skills and discovered new ways to solve problems. As a result, work efficiency increased from 45% to 85%.". I brought my students together as a team, managed them, and in doing so, developed skills as a project manager and team leader.

Inch-soft Vue.js   January 2024

Collaborated closely with back-end developers to ensure seamless frontend-backend integration. Applied responsive design principles for a consistent user experience across devices. Used Vue.js to build dynamic web components, staying updated with industry trends. Improved fault tolerance from 85% to 99%, ensuring a stable and reliable application.

Technical Skill: JavaScript, Typescript, React.js, Next.js, Vue.js, Redux toolkit, HTML, CSS, SASS, Bootstrap, Tailwind,   REST API, GitHub, Trello

Soft skills: Effective Communication, Teamwork and Collaboration,Problem Solving,Leadership, Critical Thinking, Networking, Self-Motivation, Active Listening, Persuasion, Presentation Skills, Patience, Work Ethic, Mentoring and Coaching, Networking.
